Ethan Lim Wei Jie

Mechanical Engineering Student

ethan.lim@example.com | +65 8123 4567 | Singapore

PROFILE

Motivated mechanical engineering student with hands-on experience in CAD modelling, prototyping, basic manufacturing processes and engineering analysis. Interested in product design, automation and continuous improvement, with a strong focus on practical problem solving and teamwork.

EDUCATION

Diploma in Mechanical Engineering 2024 - 2027

Republic Polytechnic, Singapore

- Relevant modules: Engineering Design, CAD, Materials, Thermofluids, Manufacturing Processes and Engineering Mathematics.
- Current GPA: 3.68 / 4.00. Awarded Director's Roll for strong academic performance.

PROJECTS

Automated Bottle Sorting Prototype 2026

- Designed the mechanical frame and conveyor layout in SolidWorks and produced detailed component drawings for fabrication.
- Worked in a four-person team to integrate sensors and a servo-driven sorting mechanism, improving sorting accuracy during testing.

Compact Heat Sink Design Study 2025

- Compared aluminium heat sink geometries using engineering calculations and basic simulation results to evaluate thermal performance.
- Presented design recommendations based on cooling effectiveness, manufacturability and material cost.

EXPERIENCE

Engineering Assistant Intern - Nova Precision Pte. Ltd. Mar 2026 - Aug 2026

- Updated CAD drawings and assisted engineers with dimensional checks for machined components.
- Supported 5S activities and helped document recurring production defects for weekly improvement discussions.
- Prepared simple inspection records and communicated measurement findings clearly to technicians and supervisors.

TECHNICAL SKILLS

CAD & Design: SolidWorks, AutoCAD, Fusion 360 | Engineering: Technical drawings, GD&T basics, prototyping, basic FEA concepts | Tools: Microsoft Excel, PowerPoint, 3D printing, hand tools

ADDITIONAL

Languages: English, Mandarin | Strengths: Teamwork, analytical thinking, attention to detail, willingness to learn

FICTIONAL SAMPLE RESUME - Created for testing/demo purposes
