Aisha Rahman

Electrical & Electronics Engineering Student

aisha.rahman@example.com | +65 8234 5678 | Singapore

PROFILE

Detail-oriented electrical and electronics engineering student with experience building microcontroller-based systems, wiring basic circuits and troubleshooting sensor integrations. Interested in embedded systems, industrial automation and IoT applications, with a practical and safety-conscious approach to engineering work.

EDUCATION

Diploma in Electrical & Electronic Engineering 2024 - 2027

Temasek Polytechnic, Singapore

- Relevant modules: Circuit Analysis, Digital Electronics, Microcontrollers, PLC Fundamentals, IoT Systems and Engineering Mathematics.
- Current GPA: 3.74 / 4.00. Completed multiple team-based laboratory and design projects.

PROJECTS

Smart Energy Monitoring System 2026

- Built an ESP32-based prototype that captured current and voltage readings and displayed usage data on a simple web dashboard.
- Tested sensor readings, identified wiring issues and improved measurement stability through repeated calibration and validation.

PLC-Controlled Mini Conveyor 2025

- Programmed basic start-stop, emergency-stop and sensor logic for a training conveyor using ladder logic.
- Documented the I/O map and created a clear troubleshooting checklist for common faults.

EXPERIENCE

Technical Intern - BrightGrid Automation Pte. Ltd. Apr 2026 - Sep 2026

- Assisted with panel wiring checks, cable labelling and continuity testing under engineer supervision.
- Updated equipment checklists and helped verify sensor operation during system commissioning activities.
- Followed workplace safety procedures and maintained organised technical records for project handover.

TECHNICAL SKILLS

Electronics: Circuit testing, soldering, digital logic, multimeter use | Programming & Control: Arduino, ESP32, C/C++ basics, ladder logic | Software: Tinkercad, Proteus basics, Microsoft Excel, PowerPoint

ADDITIONAL

Languages: English, Malay | Strengths: Troubleshooting, documentation, teamwork, adaptability, safety awareness

FICTIONAL SAMPLE RESUME - Created for testing/demo purposes
